

The Individual Practice-Based Learning Program

The **Individual Practice-Based Learning Program (PBLP)** is a flexible program that can easily fit into your busy schedule when and where you choose. It is a structured, self-directed learning activity designed to assist you to incorporate evidence-based knowledge into your practice. The program includes the use of practice-based educational modules along with a comprehensive Personal Practice Reflection Tool (PRT) designed to trigger reflection on learning and implementation of new knowledge into practice.

The Foundation's Mission

The Foundation for Medical Practice Education (FMPE) is a Canadian not-for-profit that offers practice-based learning programs created by family physicians for family physicians with a mission to provide programs that are collaborative, evidence-based, supportive, flexible and focused on practice change to enhance patient care.

Practice-Based Learning Program Modules

The Foundation for Medical Practice Education publishes 14 educational modules per year for its members, that are available in both English and French. These modules include family practice cases, an evidence-based summary of key information, and relevant patient information sheets (handouts) or chart aids which physicians will find useful in practice. Modules are available in both an online interactive format called the Interactive Module as well as a more traditional online and print-compatible PDF format. The modules are authored by practising family physicians and reviewed by specialists in the field.

How does the Individual Practice-Based Learning program work?

Participants receive all 14 educational modules as they are published during the membership year. Each module is accompanied by a personal practice reflection designed to help participants maximize their learning and to integrate it into their practice. Our Interactive Module platform allows you to navigate the content according to your learning needs, bookmark relevant information points and take notes. It is both desktop and mobile compatible.

Members may also complete an optional Practice Improvement Activity (PIA) which has been certified by the College of Family Physicians of Canada for two Mainpro+ Assessment credits per hour. Each activity is worth a minimum of 20 credits.

Study Credits

This self-learning program has been certified by the College of Family Physicians of Canada for 5 Mainpro+ credits per module (with the completion of a Personal Practice Reflection Tool and Personal Follow-Up Practice Reflection Tool). Credits are automatically uploaded to the CFPC through the direct credit entry process.

Members of the American Academy of Family Physicians are eligible to receive an equal number of Prescribed credits due to a reciprocal agreement with the College of Family Physicians of Canada.

How to Join the Individual Practice-Based Learning Program

REGISTRATION: Please complete the attached registration form.

MEMBERSHIP FEE:

CAD \$415

MAINPRO+ CREDITS AND PERSONAL PRACTICE REFLECTION TOOL (PRT): In your initial package, you will receive instructions on how to complete and submit the PRT for each module you review in order to qualify for study credits. This tool is used to record the potential impact of the module on your practice.

Program Registration Forms May Be Sent By Email

Email: fmpe@mcmaster.ca

Individual PBLP Membership Advantages

The following are just a few of the important benefits of belonging to this Program:

- **FLEXIBILITY** that allows physicians to continue their self-directed learning when and where they choose, with options tailored to their learning needs.
- **EDUCATIONAL MODULES** that are developed by family physicians for family physicians, and extensively researched by qualified staff; **MODULE TOPICS** that cover a wide array of practice issues, including acute care medicine; **PRACTICAL INFORMATION** (including practice aids and patient handouts) that can be readily used in clinical practice.
- A user-friendly **MEMBERS ONLINE** (<https://members.fmpe.org>) area for easy access to clinical modules and selected appendices (e.g., patient handouts) for day to day clinical uses. Also available, access to duplicate copies of study credit letters and payment receipts, as well as the PRT.
- An informative quarterly **NEWSLETTER** that includes discussion of issues relevant to clinical practice.
- **EXCEPTIONAL VALUE** for maintaining your professional educational competence.
